

Roofit

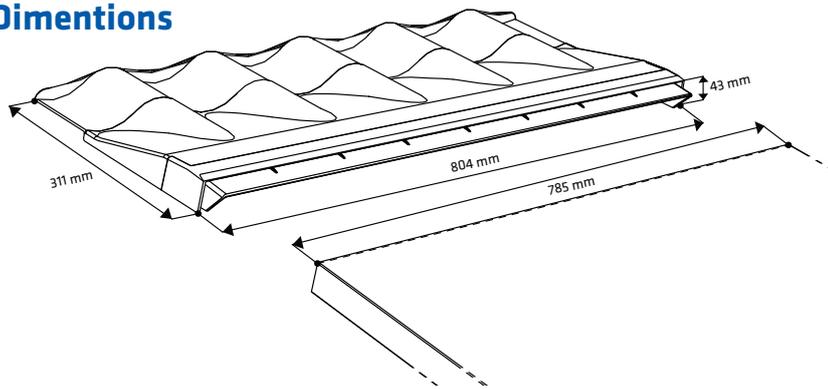

Flexible flue joint for tile roofing

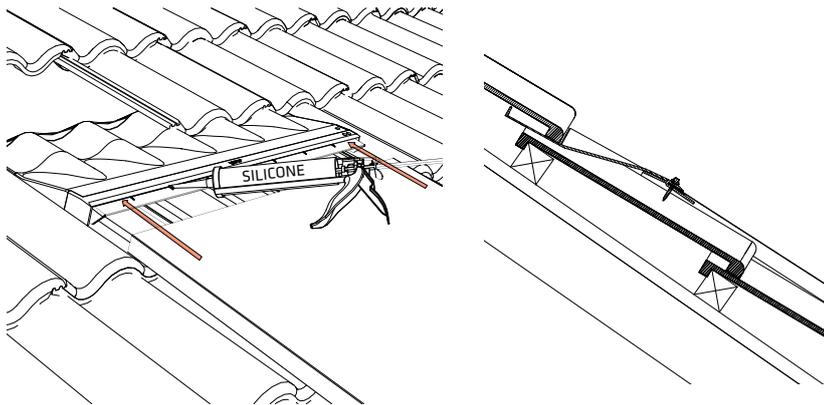

Connects tile roofing with flashings

We introduce a new flue joint for tile roofing - VILPE[®] Roofit. The new Roofit is intended to be used for connecting the flashing of the flue to the tile roofing. Suitable for use with the Flashing set or the Chimney pass-through set. It is made of polypropylene plastic and rubbery thermoplastic. That makes it flexible so it can be easily fit on different roof profiles.
